Re: 80% Furnaces

Dear Irwin.

In regards to rebates on the P\*UCD furnace line, York is making it up since we fall just short of the 80% utility requirement. Making it up means we will rebate \$1 per mbtu of output per furnace. For example a P3UCD12N07601 would yield a \$76.00 rebate.

On each rebate it will be necessary to submit a completed rebate form to this office for proper credit. We will supply these forms at the appropriate time.

York does reserve the option to substitute with 80% equipment when available.

As always if I could be of any further assistance please give me a call.

Sincerely,

A handwritten signature in black ink, appearing to read "Jonathan A. Curt".
